* This lamp cannot be used with emergency ballast.

Description

The first full-glass dimmable LED A19 bulb in the US market. The Omni A19 LED screw-in bulb looks exactly like an incandescent bulb, without the risk of theft! The Omni A19 radiates a 360 beam, leaving no shadow or dark zone near the base of the bulb. The Omni A19 8W LED screw-in bulb is the most cost-effective replacement to a 60W incandescent bulb. No coupons or rebates needed! Start your savings NOW!

The traditional A19 LED lamp has a hard cutoff of light at the dark base zone. The Aleddra A19 bulb doesn't have a dark zone at the base and puts out light beyond the base.
