Selection and style.

A low-profile design and numerous size options create a look and feel that can match any space.

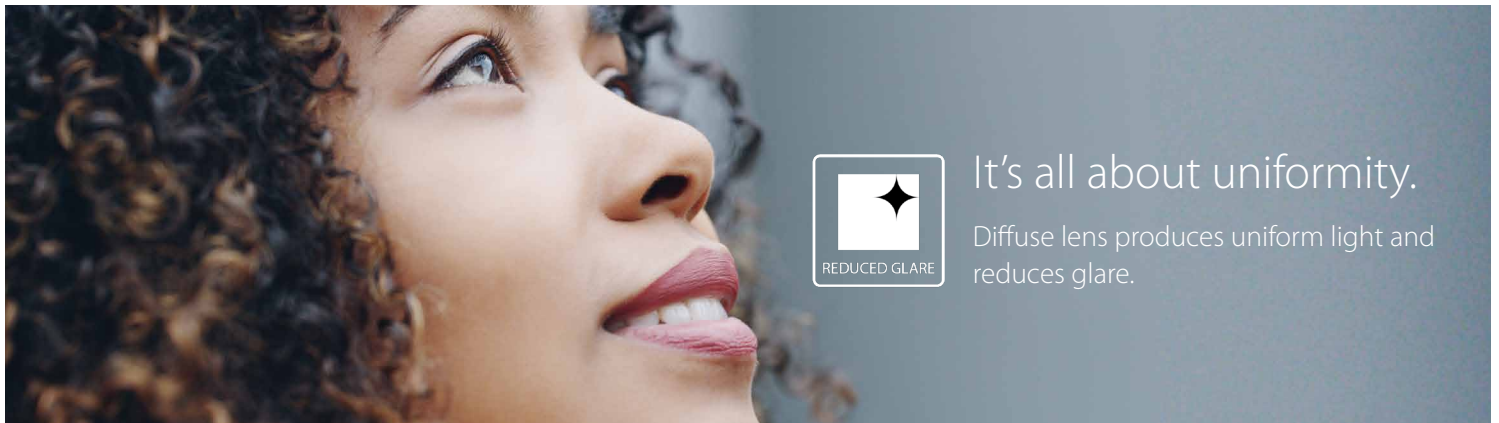

Tunable white.

This line of surface mounts is field adjustable, allowing you to choose from five color temperatures with the flick of a switch, giving you the flexibility to customize an area's appearance with a single fixture!

Indoor and outdoor.

UL listed for wet locations under covered ceilings, the CURV works great in canopies and other outdoor applications.

It's all about uniformity.

Diffuse lens produces uniform light and reduces glare.
